

ROOFLock COATING SYSTEMS

ROOFLock 1050 FOR LONG-TERM WATERPROOFING REPAIRS

ROOF AND GUTTER REPAIRS AND REFURBISHMENT – single layer coating

Rooflock 1050: A single-layer waterproofing coating for long-term general waterproofing and repairs.

Time & Labour Saving

Developed to save labour and time on site, this latest-generation coating system is applied as a single layer to the substrate, giving substantial time and cost savings.

Also available in 290ml cartridge form for use as sealant for cracks and splits in the substrate.

BENEFITS

- Single coat application – very quick to apply
- Moisture tolerant
- No primer required
- Solvent free and odourless – suitable for use in sensitive areas
- Non-hazardous
- Very high flexibility
- Cold applied
- UV resistant

SUBSTRATES

- Metal
- Aged single ply membrane
- Bitumen
- Asphalt
- Concrete
- Fibre cement

Colour

Grey Ral 7040
