

ROOFLOCK COATING SYSTEMS

ROOFLOCK 1090 FOR CUT EDGE CORROSION TREATMENT

CUT EDGE CORROSION TREATMENT – single layer coating

Rooflock 1090: A single-layer cut edge corrosion treatment system for refurbishing and protecting metal roofs and cladding.

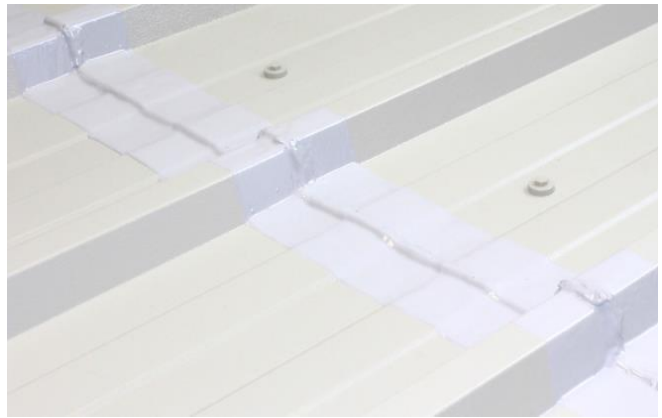

Time & Labour Saving

Developed to save labour and time on site, this latest-generation coating system is applied as a single layer to the roof, giving substantial cost savings.

15 year Warranty

With warranties of up to 15 years available, you have the assurance of a high performance and durable system. (For projects requiring a warranty, Rooflock must be consulted prior to commencement of the project.)

Rooflock 1090 is a flexible, sealed system, giving long term protection without the risk of rust stains forming in the future from the joints.

BENEFITS
