

ROOFLOCK COATING SYSTEMS

ROOFLOCK TWELVE

For waterproofing roof penetrations and details

Rooflock Twelve is a seamless liquid-applied coating system for waterproofing new-build and refurbishment projects, that is appreciated by contractors for its ease of use.

Significant labour savings

Rooflock Twelve creates a labour saving method of waterproofing around challenging roof penetrations, such as rooflights and M & E penetrations, when used in accordance with Rooflock Twelve Roof Penetration waterproofing specification.

The easy-to-use formulation gives significant time savings compared to conventional waterproofing methods.

Superior aesthetics

The durable, semi-gloss UV stable finish provides superior aesthetics and a neat smooth appearance.

BBA and ETA Certified

Rooflock Twelve is certified by the British Board of Agrément (Certificate No. 17/5455) and to ETAG 005 (Certificate No. ETA 14/0258).

BENEFITS

- Significant labour savings compared to conventional methods
- Superior aesthetics from the durable, semi-gloss UV stable finish
- BBA Certified
- 10 year warranty available* gives peace of mind
- Fully reinforced with chopped strand reinforcement for exceptional mechanical strength
