

FLOWLOCK F2000-E

SOLVENT-FREE EPOXY FLOOR COATING SYSTEM

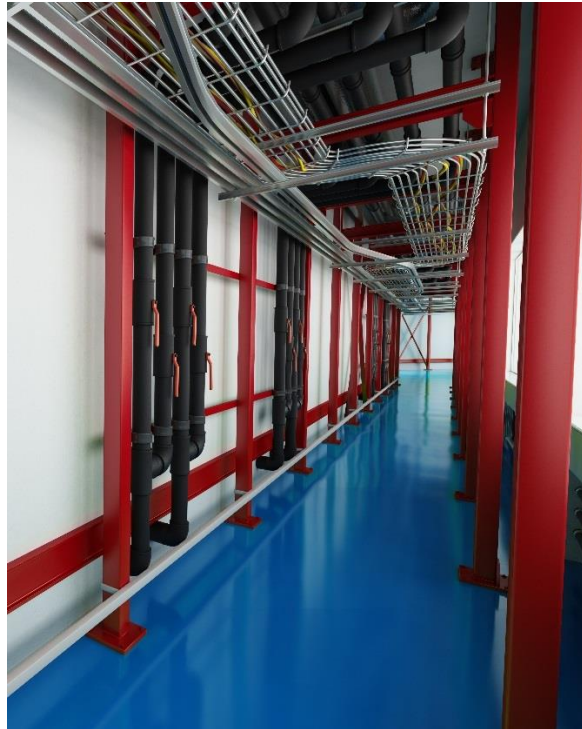

Developed for dilapidations and refurbishment applications, where the system is easily specified in accordance with most decorations covenants, Flowlock F2000-E is a solvent-free, high build epoxy floor coating system for medium duty* industrial applications.

It has high wear resistance and has good resistance to a range of chemicals, acids and oils.

Very easy to clean.

Can also incorporate Flowlock FCS 110E Crack Sealing System and Flowlock JRS 440 Expansion Joint Sealant System.

A skid inhibiting surface can be incorporated into Flowlock F2000-E system to improve traction if required.

BENEFITS

- High wear and impact resistance
- Smart aesthetics
- Solvent free – no odour
- High chemical resistance
- Can incorporate skid inhibiting surface

COLOURS

- Grey (RAL 7040)
- Light Grey (RAL 7047)
- Sky Blue (RAL 5015)
- Beige (RAL 1013)
